

INVESTOR PRESENTATION

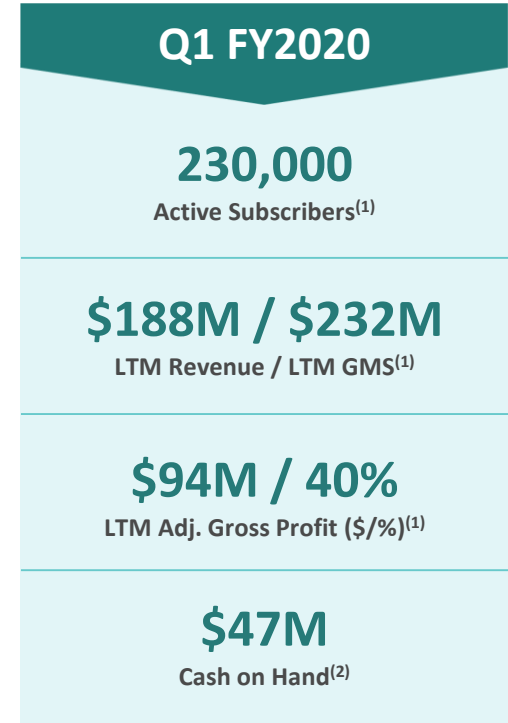

January 2020

Caution regarding forward-looking statements

This presentation may include forward-looking statements regarding Goodfood, its business, operations or results. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "is expected", "expects", "scheduled", "intends", "contemplates", "anticipates", "believes", "proposes" or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward-looking statements, by their very nature, are subject to inherent risks and uncertainties and are based on assumptions, both general and specific, which give rise to the possibility that actual results or events could differ materially from expectations expressed in, or implied by, such forward-looking statements. These statements also involve known and unknown risks, uncertainties and other factors, including factors that are beyond Goodfood's control, that may cause actual results or events to differ materially from those expressed in such forward-looking statements. Forward looking statements reflect Goodfood's then current views with respect to future events based on certain material facts and assumptions. Although Goodfood believes that the assumptions on which such forward-looking information is based are reasonable at the time they are made, there can be no assurance that such facts or assumptions will prove to be correct and undue reliance should, therefore, not be placed on any forward-looking information. Forward-looking events and circumstances may not occur at all or by specified or anticipated dates. Events and/or results could differ materially as a result of known and unknown risks and uncertainties affecting Goodfood, including, without limitation, risks regarding the food industry, economic factors, the equity markets generally, changes in regulatory environment or law, failure to obtain required approvals and risks associated with growth and competition in addition to other risks identified in publicly filed documents under Goodfood's profile at www.sedar.com as well as other unknown risks. Forward-looking statements speak only as of the date on which they are made and Goodfood undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Goodfood today – gaining significant scale

Goodfood is a Canadian leader in **online grocery and home meal solutions**

Operating in **+\$165 billion** Canadian TAMs, with **online penetration <5%**

Operating across the country, **reaching 95% of Canadian population** with leading, strongly **recognized brand**

(1) This is a metric or non-IFRS financial measure. Please refer to page 17 of this presentation for more details.

(2) Includes cash, cash equivalents and restricted cash.

Goodfood investment thesis anchored in growth, execution and market leadership

	Key Investment Highlights
<p>✓ Exceptional growth profile with proven business model</p>	<ul style="list-style-type: none"> • Goodfood has delivered 20% average monthly growth since Q4/2015 • Active subscribers, revenue and gross profit more than doubled y-o-y

Goodfood is committed to its Green Vision

Goodfood's packaging is fully recyclable and just in time business model allows to reduce waste to only ~1%

SELECTED GOODFOOD GREEN INITIATIVES

- New reusable box aiming to save millions of single-use packaging across Canada
- Carboard box pick-up in Canada's major cities for recycling
- Cutting down food waste by just-in-time inventory, delivery of pre-portioned ingredients and giving away leftovers to employees
- Minimizing transportation by sourcing fresh and in-season ingredients locally from trusted long term partners and vendors
- Contributing to a nutritious meal for a child in need at school for every Goodfood box purchased
- Committed to reducing plastic inside the box by 50% by the end of Fiscal Year 2020

DID YOU KNOW?

- On average, grocery meal greenhouse gas emissions are 33% higher than meal-kits⁽¹⁾
- Meal-kits' streamlined and direct-to-consumer supply chain reduced food waste and lower last-mile transportation emissions appear to be sufficient to offset observed increases in packaging⁽¹⁾
- Meal-kit refrigeration packs present an average emissions decrease compared with retail refrigeration⁽¹⁾

Metrics and non-IFRS financial measures

Goodfood reports its financial results in accordance with International Financial Reporting Standards ("IFRS"). Goodfood also uses non-IFRS measures in this presentation that do not have any standardized meaning prescribed by IFRS, including gross merchandise sales, gross merchandise sales run-rate, adjusted gross profit, adjusted gross margin, and EBITDA. These non-IFRS measures may not be comparable to similar measures presented by other companies. For further details of these non-IFRS measures, including a reconciliation to the most directly comparable IFRS financial measures, refer to Goodfood's Management's Discussion and Analysis.

Metrics	Definition
Active Subscribers	An account that is scheduled to receive a delivery or has elected to skip delivery in the subsequent weekly delivery cycle. Active subscribers exclude cancelled accounts. For greater certainty, an Active subscriber is only accounted for once, although different products might have been ordered in a given weekly delivery cycle. While Active subscribers is not an IFRS or Non-IFRS Financial Measure, and therefore, does not appear in, and cannot be reconciled to, a specific line item in our consolidated financial statements, we believe that Active subscribers is a useful metric for investors because it is indicative of future revenues. The Company reports the number of Active subscribers at the beginning and end of the period, rounded to the nearest thousand.
Non-IFRS Financial Measures	Definition
Gross Merchandise Sales	Gross merchandise sales ("GMS") measures the total retail value of goods sold by the Company and is calculated before taking into account all incentives and credits included in revenue. Incentives and credits, presented at retail value, are principally comprised of sign-up inducements, which typically provide new Active subscribers with a discount on their first delivery.
Gross Merchandise Sales Run-rate	Calculated as gross merchandise sales for the four-week period ended as at the date indicated multiplied by thirteen.
Adjusted Gross Profit & Adjusted Gross Margin	Adjusted gross profit and Adjusted gross margin measure gross profit and gross margin on a retail value basis. Adjusted gross profit is calculated by subtracting the cost of goods sold from GMS. Adjusted gross margin is expressed in percentage terms and calculated as Adjusted gross profit divided by GMS.
EBITDA	EBITDA is defined as net income or loss before net finance expenses (income), depreciation and amortization expense and income tax expense.
Adjusted EBITDA	Adjusted EBITDA is defined as EBITDA excluding share-based compensation expenses as they are an equity compensation item and other items that we believe do not necessarily arise as part of the Company's normal day-to-day operations and could distort the analysis of trends in business performance.

APPENDIX

goodfood

Typical seasonality patterns

	Q1 Sept-Oct-Nov	Q2 Dec-Jan-Feb	Q3 Mar-Apr-May	Q4 June-July-Aug
Marketing campaigns	Higher	Higher	Medium	Low
Order rates	Higher	High	Medium/High	Low
New subscribers	Higher	High	Medium/High	Low
Margins	Higher	Lower	Higher	Lower
Cash flow from operations target	Positive for the period			Negative
Comments	Strong quarter with important back-to-school period	January and February are traditionally strong-demand months after a slowdown in December due to the Holiday Season	March is typically impacted by Spring break, April is strong and May depends heavily on weather	Summer months are slow given vacation time and nicer weather

Q1-20 – Key Highlights

Continuing to deliver strong growth and consistently strong margin improvement

(in millions of Canadian \$ except active subscribers and margins)	Q1-20	Q1-19	Y-o-Y Δ

Offering includes diversified meal options and grocery items capturing most of the Canadian grocery basket

Offers 5 meal plans, 1 value brand, a growing breakfast offering, prepared meals and grocery items

by eliminating expensive overhead, waste and the need for brick-and-mortar stores

Goodfood's value-positioned brand: YUMM.CA

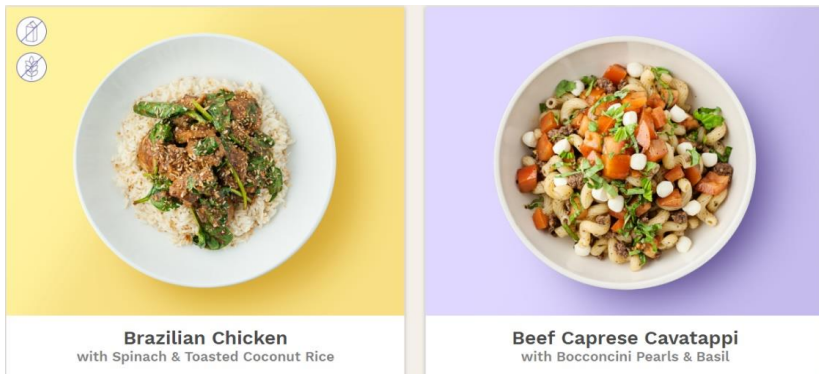

Canada's most affordable meal-kit targeting cost-focused Canadian clients

- ✓ Launched Nationwide in May 2019, it's the lowest priced ready-to-cook meal solution in Canada, starting at \$6.99 per serving
- ✓ Limited numbers of quality ingredients allows simpler recipes that are faster to prepare
- ✓ Unlocks untapped demographics including students and busy families - offering the right meal solution to the right consumer
- ✓ Leveraging Goodfood's national direct to consumer perishable goods supply chain:

- Economies of scale
- Fulfilled through our reliable infrastructure and delivery partners
- Enhanced customer retention and lower acquisition costs
- Similar margin profile
