Notes to the Interim Condensed Consolidated Financial Statements – March 8, 2025 (All tabular amounts are in thousands of Canadian dollars, except share information – Unaudited)

1. **REPORTING ENTITY**

Goodfood Market Corp. is a digital meal solutions brand in Canada, delivering fresh meals and add-ons that make it easy for customers from across Canada to enjoy delicious meals at home every day. References to Goodfood Market Corp. (or "Goodfood", the "Company") represent the financial position, financial performance, cash flows and disclosures of Goodfood Market Corp. and its subsidiaries on a consolidated basis.

Goodfood Market Corp. is incorporated under the *Canada Business Corporations Act* and is listed on the Toronto Stock Exchange ("TSX") under the symbol "FOOD". The Company has its main production facility and administrative offices based in Montreal, Québec with an additional operating facility in Calgary, Alberta.

2. BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

These interim condensed consolidated financial statements of the Company have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting* as issued by the International Accounting Standards Board ("IASB"). These interim condensed consolidated financial statements do not include all the disclosures required for annual consolidated financial statements prepared in accordance with IFRS Accounting Standards as issued by the IASB and should be read in conjunction with the annual audited consolidated financial statements of the Company for the year ended September 7, 2024.

These interim condensed consolidated financial statements of the Company were approved by the Board of Directors ("Board") on April 21, 2025 for publication on April 22, 2025.

2.2 BASIS OF MEASUREMENT

The interim condensed consolidated financial statements have been prepared on the historical cost basis except for the following:

- equity share-based payment arrangements which are measured at fair value at grant date;
- lease obligations, which are measured at the present value of minimum lease payments at lease inception; and
- Financial instruments measured at fair value through profit and loss including marketable securities and future contingent performance-based payment.

2.3 FUNCTIONAL AND PRESENTATION CURRENCY

The interim condensed consolidated financial statements are stated in Canadian dollars, which is the functional and presentation currency of Goodfood Market Corp.

2.4 SEASONALITY OF THE BUSINESS

The Company's net sales and expenses are impacted by seasonality. During the winter holiday season and summer season, the Company anticipates net sales to be lower as a higher proportion of customers elect to skip their delivery. During periods with warmer weather or very cold weather, the Company anticipates packaging costs to be higher due to the additional packaging required to maintain food freshness and quality.

Notes to the Interim Condensed Consolidated Financial Statements – March 8, 2025 (All tabular amounts are in thousands of Canadian dollars, except share information – Unaudited)

3. MATERIAL ACCOUNTING POLICIES

Material accounting policies applied in these interim condensed consolidated financial statements are the same as those applied to the Company's annual audited consolidated financial statements for the year ended September 7, 2024.

4. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's interim condensed consolidated financial statements in accordance with IFRS requires management to make judgements, estimates and assumptions that affect the reported amounts of assets, liabilities, net sales and expenses and accompanying disclosures. Uncertainty about these assumptions and estimates, including the current economic environment, could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. These assumptions and estimates are regularly reviewed. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty are the same as those applied to the Company's annual audited consolidated financial statements for the year ended September 7, 2024.

5. BUSINESS COMBINATION

On November 13, 2024, the Company entered into a share purchase agreement to acquire 81% of the shares of Genuine Tea Inc. ("Genuine Tea") for a total consideration of \$2.2 million, including future consideration that is partially performance based. Genuine Tea is a leading Canadian craft tea company. The founding shareholders ("non-controlling shareholders") hold the remaining shares of Genuine Tea, with Goodfood having a right to acquire their shares in the future. For the 26 weeks ended March 8, 2025, total acquisition costs relating to Genuine Tea amounted to \$0.1 million and were included in selling, general and administrative expense.

As at March 8, 2025, the preliminary determination of the fair value of the assets acquired and liabilities assumed arising from the Genuine Tea acquisition is as follows:

Current assets ⁽¹⁾	\$ 1,248
Current liabilities	(546)
Property, plant and equipment	3
Intangible assets and goodwill ⁽²⁾	1,827
Right-of-use assets	24

acquisition	\$ 1,900
Cash and cash equivalents acquired	300
Fair value of net assets acquired	\$ 2,200
Purchase price payable ⁽³⁾	700
Total cash consideration	\$ 1,500

⁽¹⁾ Excluding cash acquired.

⁽²⁾ Includes \$0.8 million of goodwill.

⁽³⁾ Includes \$0.5 million of future contingent performance-based payment.

Notes to the Interim Condensed Consolidated Financial Statements – March 8, 2025 (All tabular amounts are in thousands of Canadian dollars, except share information – Unaudited)

As part of the purchase agreement, the non-controlling shareholders of Genuine Tea were granted a put option, exercisable following, amongst other events, the seventh-year anniversary of the acquisition, allowing them to sell all the remaining shares of Genuine Tea to the Company. The purchase price will be a multiple of the applicable EBITDA, defined as net income or loss before net finance costs, depreciation and amortization and income taxes, for the twelve-month period before the put option is exercised. As at the acquisition date, the Company recorded a put option liability of \$0.4 million in non-current liabilities and reduced the non-controlling interest by the same amount.

Notes to the Interim Condensed Consolidated Financial Statements – March 8, 2025 (All tabular amounts are in thousands of Canadian dollars, except share information – Unaudited)

11. FINANCIAL INSTRUMENTS AND FINANCIAL RISKS

Goodfood has determined that the fair value of cash and cash equivalents, accounts and other receivables, and accounts payable and accrued liabilities approximate their respective carrying amounts at the consolidated statements of financial position date, due to the short-term maturity of those instruments. Goodfood determined the fair value of its marketable securities using level 1 input.

The Company determined the valuation of its Debentures at issuance using Level 1 and 3 inputs. As at March 8, 2025, the Company determined that the fair value of its debentures approximates \$25.3 million which was determined based on market trading value for 2025 Debentures and 2027 Debentures and market conditions for 2028 Debentures.

Liquidity risk:

Liquidity risk is the risk that the Company will be unable to fulfill its obligations on a timely basis or at a reasonable cost. The Company manages its liquidity risk by monitoring its operating requirements. The Company prepares budgets and cash forecasts to ensure it has sufficient funds to fulfill its obligations.

The Company monitors its risk of shortage of funds by monitoring forecasted and actual cash flows and maturity dates of existing financial liabilities and commitments and is actively managing its capital to ensure a sufficient liquidity position to finance its general and administrative, working capital and overall capital expenditures.

In order to manage its liquidity risk, the Company constantly reviews its operations and overall business to drive efficiencies to form the basis for positive cash flow and long-term profitable growth.

This assessment could be affected by economic, financial and future competitive factors, and other future events that are beyond the control of the Company. Management's liquidity assessment could be impacted if the actual operational performance is lower than the one used in the forecasted cash flows.

12. SUBSEQUENT EVENTS

On March 17, 2025, the Company announced its decision to exercise its Common Share Repayment Right (as defined herein) for the repayment of its outstanding \$6.232 million in 5.75% convertible unsecured subordinated debentures due March 31, 2025.

Goodfood elected to satisfy its obligation to pay the principal in respect of the 2025 Debentures by delivering common shares in lieu of cash (the "**Common Share Repayment Right**").

On March 31, 2025, the Company issued a total of 19,271,032 Common Shares to holders of its \$6.232 million of outstanding debentures to repay the principal amount owing upon maturity, at an issue price of approximately \$0.32 in connection with the Common Share Repayment Right.
